LONG-TERM CARE IN ONTARIO

Who pays for LTC?

The care in all long-term care is publicly funded.

The government pays for care, and residents contribute to everyday living costs, such as accommodation and meals, through co-payments.

Your co-payment depends on whether you choose:

Basic Room	Semi-Private Room	Private Room
Financial Assistance Available	Shared by two residents	Fully private, not shared

The level of care is the same in every room type.

The Ontario Government sets the maximum co-payment rates each year, not individual homes.
Rates are the same across all long-term care homes.
Eligible residents may qualify for help with the cost of basic accommodation.

Ontario pays for

Health and personal care for people who need 24/7 support.

- Nursing
- Personal Care
- Clinical Support

Residents contribute toward

Accommodation and meals.
The everyday costs people have at home.

- A room
- Meals
- House-keeping
- Laundry
